SUBJECT      Photographic Production at  
             Zagreb, Yugoslavia

Return to CIA Library

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT OF U. S. C., 51 AND 52, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. "Fotokemika", Zagreb, until recently concentrated its activities largely in the production of photographic paper for the Yugoslav Air Force (which took 70 percent of its output) and produced 16,100 square meters between January and June 1948. In October 1948, however, a section was set up for the manufacture of daylight-loading film to satisfy Air Force requirements.
2. "Fotokemika" also started in October 1948 to put into effect plans for making aircraft cameras. (The lenses for these cameras will be supplied by the recently installed "Optika" factory).
3. The first of these aircraft cameras are to be ready by April 1949.
4. In addition, "Fotokemika" intends shortly to start mass production of popular cameras of the Kodak type.
